

2021-2022 LPA Parent University Schedule

With the implementation of full virtual learning, LPA realizes that another important piece in the remote learning jigsaw puzzle that needs support is **parents**. We understand that parents will find themselves having to play a much more active role in their students' education. Never before has the burden of responsibility between schools and parents been shared in this way. Therefore, LPA's 2021-2022 Parent University will focus supporting parents and families during remote learning, helping them to navigate remote learning, and ensuring that their students thrive in that environment.

August - **The Journey Back to In-Classroom Learning: Creating An Effective Environment for Learning At Home** - *Discuss how to prepare students to return to classroom instruction, how to ramp up student motivation post pandemic, and what strategies can be used at home to support student success.*

September - **Growth Mindset and Student Success** - *Learn about what growth mindset is, how it affects student learning, parental praise and ways to instill a growth mindset at home.*

October - **How to Help your Child Become A Successful Learner** - *Learn strategies to help your child succeed in school and become a strong student.*

November - **Easing Homework Hassles** - *Back-to-school means back to routines and homework — potential stress for kids and parents alike. Explore how to make homework easier.*

December - **Raising A Reader: Getting Children Motivated to Read** - *Find ways to spark a passion for reading and motivate students to read regularly.*

January - **Positive Affirmations and Student Learning** - *Learn how to build self-esteem and confidence in children with positive affirmations.*

February - **Education Beyond the Classroom** - *Explore ways to provide educational challenge to students outside of the school day.*

March - **Helping Your Child Prepare for Testing** - *Find out how to help your learner get ready for the annual test, plus get insight into how to interpret your child's results.*

April - **Technology and Learning** - *Using technology to foster critical thinking, communication, collaboration and creativity.*

May - **Mind the Gap: Why Summer Learning Is Important** - *Explore reasons why summer learning is important and ways to support summer learning for your students.*

The Parent University Schedule is posted on the website with monthly announcement of activities included in the Upcoming Events on the Home page.
